REAL TIME PROJECTS

PHYSIO CLINIC MANAGEMENT

Using MERN stack (Full-stack)
Gives complete management for assessing and managing the clinic with detailed analytics.

COLLEGE ACTIVITY TRACKER

Using React and Node js (Full-stack)
Students can see their college activities, while admins use analytics and audit student data.

PERFORMANCE ANALYTICS-FLASK APP

Using Python and Cognos
We have developed a Flask application that showcases an analytics report dashboard on the web. For analytics, we utilized IBM Cognos.

G-BUS (A TICKETING APP PROTOTYPE)

Using Figma and Bravo
It is a mobile application for the general public. Using this app, people can purchase their bus tickets to travel.

SRI MEDICAL BUSINESS ANALYTICS

Using MySQL and Sheets
As an amazing team that analyzed the client's overall business data and provided a report aimed at improving customer satisfaction and revenue.
